

PRODUCT DATA

CITRUS SOL

Industrial strength citrus cleaner & degreaser manufactured without hazardous chemicals.

It is an incredibly powerful, cleaner and degreaser with an active ingredient called d'limonene. **Citrus Sol** is a concentrated citrus formula that when diluted becomes one of the most economical, effective, versatile grease cutting product on the market. Natural orange extracts, coupled with biodegradable surfactants, detergents, dirt suspending agents, water softeners and builders produce a formidable cleaner for everyday applications. The reason for this difference is the better solvency of d'limonene.

Quickly removes soils from: Kitchen floors, Automotive Garages, Metal Equipment and Tools, Garbage Cans and Trucks, Dumpsters, Concrete, Masonry Road, Construction and Farm Equipment.

Citrus Sol may be applied by pouring, scrubbing with a broom/brush, or spraying. After application, allow product to soak into surface for 5 minutes. A floor scrubber should be used for heavy-duty jobs. After scrubbing into surface, rinse with water, and vacuum or squeegee remaining residue from surface. If stain or buildup remains, repeat cleaning process. Use water to clean tools and equipment.

General cleaning and degreasing: 1 part to 40 to 80 parts water

Heavy grease and oil removal: 1 part to 5 parts water

High pressure washing: 1 part to 160 parts water

Wet mopping and sponging: 1 part to 80 parts water

Automatic scrubbing machine: 1 part to 40 parts water

CAUTION: Some painted surfaces may be affected. Always pre test product in an inconspicuous area, before use.

Read the Material Safety Data Sheet before handling this product.
