

PRODUCT DATA

SANITIZER

SANITIZER, DESTAINER AND LAUNDRY BLEACH

ACTIVE INGREDIENT: Sodium Hypochlorite..... 12.00%

DESCRIPTION

SANITIZER is a concentrated solution designed for general sanitizing and deodorizing in institutional kitchens, bakery, dairy, food processing, beverage plants and industrial laundries.

PRODUCT INFORMATION

This product degrades with age. Maximum shelf life is 8 months. Use a chlorine test kit to obtain the required level of available chlorine. Increase dosage if necessary.

DIRECTIONS

For use in sanitizing and deodorizing bakery, dairy, food processing utensils and equipment, and surrounding areas. This product should be applied to a previously cleaned surface. A 50 ppm chlorine solution may be applied as a rinse. Rinsing of food contact surfaces is required when solutions containing greater than 200 ppm available chlorine are used. A 1 part to 500 parts water will give a 200 ppm solution.

LAUNDRY: Use approximately 200 to 400 ml of concentrate per 100 pounds of linen (Dry Weight), depending upon the severity of the soil. Use concentrations may vary with the type of machine, water volume, soil load and linen type.

DO NOT USE ON CHLORINE SENSITIVE COLORS OR FABRICS. PRETEST IN AN INCOCPICUOUS AREA

Consult label for additional application and precautionary information before using
